### **Positive features of me as a person**

I am analytical and inquiring mind, I have great capacity for reasoning and natural, intuitive, critical, curious, imaginative, stubborn, and energetic insightful, penetrating, determined, I do not accept middle ground and try to use my energy constructively. I consider myself a great asset to society and that I can become a great leader, I'm a good friend of whom I consider my respect it deserves, I have great ability to analyze situations and people, I am emotional, determined and passionate. I like the truth and work when it makes sense, I like to get involved in causes and convince others.

### **Experience**

1. University Projects.
2. *AvVenta (Software Engineering).*

<b><u>Start and End Date</u></b>	<b>June 2009 – December 2010</b>
<b><u>Location</u></b>	<b>Heredia – Costa Rica</b>

<b><u>Work Description</u></b>	Company dedicated to digital production of web pages and applications for third parties, responsible for many brands like (Ford, Toyota, oreo, Huggies, Nestle, Coca Cola, etc.) provided development and maintenance of digital projects focused on products and services marketing. My job in the company was to develop small units of code in Java for web projects "Pontiac and Hummer" besides the regular maintenance of the website, all this was developed in a team under objectives.
<b><u>Projects</u></b>	<ol style="list-style-type: none"> <li>1. Pontiac (<a href="http://www.pontiac.com">http://www.pontiac.com</a>).</li> <li>2. Hummer (<a href="http://www.hummer.com">http://www.hummer.com</a>).</li> </ol>

3. *Micra Consulting (Application Developer).*

<b><u>Start and End Date</u></b>	<b>February 2011 – October 2013</b>
<b><u>Location</u></b>	<b>Heredia – Costa Rica</b>
<b><u>Work Description</u></b>	Company dedicated to digital production project sites and also desktop applications, in the company I offered support, maintenance and development of new functionalities to the system in C # language and asp.net, the main project was "Arbonne" which is used as a marketing tool to sell their products through the web.
<b><u>Projects</u></b>	<ol style="list-style-type: none"> <li>1. Arbonne's Intranet (<a href="http://intranet.arbonne.com">http://intranet.arbonne.com</a>).</li> <li>2. Arbonne University (<a href="http://www.arbonneuniversity.com">http://www.arbonneuniversity.com</a>).</li> <li>3. Go Figure 8(<a href="http://www.gofigure8.com">http://www.gofigure8.com</a>).</li> <li>4. Nature's Gate (<a href="http://www.natures-gate.com">http://www.natures-gate.com</a>).</li> <li>5. AIO (All in One) Application.</li> </ol>

4. *OLO Del Perú (Software Engineering).*

<b><u>Start and End Date</u></b>	<b>February 2014 – Current date</b>
<b><u>Location</u></b>	<b>Lima – Peru</b>
<b><u>Work Description</u></b>	Company dedicated to telecommunications service providers such as Internet through mobile devices, here developed a web system using PHP YII framework, currently this is the matrix system of the most important operations in the headquarters, this system has operations customer support and

	<p>management reports from different areas, connected to multiple databases, design is controlled by bootstrap, also it has a control user access.</p> <p>Creating development and production environments for major projects of the company.</p> <p>Parallel I have provided support to the company VELATEL which belongs to OLO DEL PERU, in order to provide the number portability service, I develop a web service that can manage the connection and portability with other complex systems wich belongs to ICONECTIV who is responsible for solving portability in Peru, this Web service uses apache Axis2 and tomcat6 to deploy the service, the web service uses MTOM (mechanism transmission optimizing SOAP messages) and MTOM uses XML binary optimized packaging all this over a secure HTTPS connection</p>
<b><u>Projects</u></b>	<ol style="list-style-type: none"> <li>1. OLO Web Tool.</li> <li>2. Web Service ABDPVELATEL ICONECTIV</li> <li>3. Management of digital certificates for web services.</li> <li>4. Development and Production environments with GIT tools.</li> <li>5. Server configurations in Linux, Windows server R2, Apache2.2, Tomcat6, Tomcat7, Glassfish 4.1</li> </ol>
<b><u>Achievements</u></b>	<ul style="list-style-type: none"> <li>✓ Specialist in System Design for Management Modules.</li> <li>✓ Expert in Services and Management of number portability.</li> </ul>

# KNOWLEDGE

## Administration

- Security and business continuity.
- Systems Development Methodology.
- Management and control of projects.
- Analysis of business processes.

## Development

- **Front-end**
  - ✓ Html.
  - ✓ Xhtml5.
  - ✓ JavaScript
  - ✓ Css3.
  - ✓ Bootstrap framework.
  - ✓ Materialize framework.
  - ✓ Xml.
- **Back-end**
  - ✓ Java 1.4, 5, 6,7 y 8.
  - ✓ PHP 5, 6 y 7 (expert).
  - ✓ C#
  - ✓ C++
  - ✓ ASP Classic
- **Frameworks y Technology**
  - ✓ Spring 3 framework JAVA.
  - ✓ YII framework PHP (expert).
  - ✓ Laravel 5.2 framework PHP (expert).
  - ✓ Angularjs framework
  - ✓ JQuery.
  - ✓ JSP.
  - ✓ JPA.
  - ✓ Hibernate.
  - ✓ Java Architecture for XML Binding (JAXB).
  - ✓ Java API for XML Web Services (JAX-WS).
  - ✓ Java API for RESTful Web Services (JAX-RS).
  - ✓ Apache Axis2.
  - ✓ ASP.NET.

- **Modeling Language**
  - ✓ UML (Unified Model Language).
- **Development tools for technology projects**
  - ✓ NetBeans.
  - ✓ Eclipse.
  - ✓ SublimeText.
  - ✓ Microsoft Visio.
  - ✓ Microsoft Project.
  - ✓ Visual Studio 2005.
  - ✓ Macromedia Dreamweaver.
